

SIVA.JAKKA
UI/UX Developer

Phone : 510-509-8398.

Email: siva.jakka0113@gmail.com.

LinkedIN: <https://www.linkedin.com/in/siva-reddy-jakka-b40802115>

- ✔ More than **7** years of experience in the Web Applications Development using **HTML 4.01/5, CSS (2/3), Bootstrap, XHTML, JavaScript, ReactJS ,jQuery, AJAX, AngularJS** and **JSON java, Cucumber Selenium, Maven** .
- ✔ Experience with full software development life-cycle, object oriented programming, and **agile** Methodologies
- ✔ Good knowledge using **acrobat pro, Dreamviewr, Fireworks, Photoshop CS6, after effects, lightroom.**
- ✔ Perform QA **Smoke, Acceptance, Regression,** Functional, UI, Usability and Compatibility Testing
- ✔ Created and executed Automated Test Cases for Build Acceptance Testing via Selenium IDE
- ✔ Performed **Daily Regression testing** for fixed issues. Ran Functional, UAT, Compatibility and End-to-End Testing , Reported and kept tracking found Defects
- ✔ Automate test cases, test suites for Regression Testing via **Selenium Webdriver**
- ✔ Good Experience using the Scaffolding tools like **Yeoman, Bower and NPM.**
- ✔ Extensive programming experience in writing web application programs covering front-end /UI **JQuery** and **AJAX** for building rich user friendly, high performance web applications.
- ✔ Good knowledge on **Wireframes, Sketches, Prototypes**
- ✔ Experienced in creating the Integration Test cases using **CasperJS**, which is a wrapper on **PhantomJS**
- ✔ Good Knowledge with latest **ECMA SCRIPT 2015 (ES6)**
- ✔ Good knowledge using **Nodejs ReactJS and RedUX** (all type of components).
- ✔ Proficient in developing web page quickly and effectively using **HTML 5, CSS3, AngularJS, JavaScript** and **jQuery** and also experience in making web page cross browser compatible.
- ✔ Experience using the Client side **MVC** frameworks **AngularJS** and knowledge on **backbone.js**
- ✔ Experience in Applications using **AJAX, Object Oriented (OO) JavaScript, and JSON.**
- ✔ Good Experience in working with **Firebug for Mozilla and IE Developer Toolbar for Internet Explorer, Web Inspector for Safari, Developer Toolbar for Chrome.**
- ✔ Experience in working **MVC** Architecture and also in using version control(**SVN**)
- ✔ Worked on **CSS** Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, Pseudo Classes and CSS Behaviors in CSS.
- ✔ Involvement in using various IDE's **Notepad++, Eclipse, Sublime Text Editor, WebStrome**
- ✔ Utilized the latest front end Technologies such as **HTML5** and **CSS3** for layouts.
- ✔ Experience in **CSS** pixel-level layout, Consistency with browsers, Version and Platform Independence.
- ✔ Experience in using various **jQuery** UI controls and corresponding Event handlers etc.
- ✔ Used the latest **HTML5** elements for video playback, content rendering using semantic tags such as article, section etc

- ✔ Specialized in developing **Web 2.0** Apps using core **JQuery** along with **AJAX/JavaScript**.
- ✔ Ability to write clear, well-documented, well-commented and efficient code for **web** development.
- ✔ Experience with User Acceptance Testing (**UAT**) and Accessibility Testing.
- ✔ Strong problem-solving, organizing, communication and planning skills, with ability to work in team environment.
- ✔ Good written and oral communication skills and Interpersonal skills with a strong ability to excel through collaboration with team members

Technical Skills:

UIWeb Technologies	HTML, HTML 5, XHTML, XML, JavaScript, AngularJS, AJAX, JQuery, JSON, CSS, CSS3, Bootstrap, NodeJs,, ECMA Script 6 (ES6) Reactjs, .NET, photoshopcs6, (nikcollections, topaz) Lightroom, Aftereffects, acrobat pro, Dreamweaver, Fireworks, java, cucumber , selenium ,Maven
Technologies	.NET, SQL Server
IDE, HTML Editor	Notepad++, Eclipse IDE, Sublime Text Editor, Visual Studio, webstrom
Database	Oracle, MySQL
Methodologies	Agile, Waterfall, Rally

Professional Experience:

BBVA Compass
UI/ATDD Developer, Birmingham, AL
(Velocity and saber Client Vista, SSP-2)

Aug '16-Till date

Description: BBVA compass ([Banco Bilbao Vizcaya Argentaria](#)) is second largest bank in Spain and also 34 th largest bank in U.S. **Velocity** is a bank internal web application mainly for initiatives and team time entries etc. Client vista also internal bank teller application developed from ALNOVA for Account Registration, Origination and Customer maintenance.

Responsibilities:

- Developing dynamic web pages using HTML/HTML5, CSS/CSS3, EXT.JS, JavaScript, JQuery, JSON, Angular JS.
- Developed multi pages application using jquery jS. made AJAX request to servers using the same.
- Coded extensively in jQuery to make rich internet web pages. Identified elements in Java/Selenium by using Xpath, CSS selector, ID and Name
- Designed **Hybrid Automation** Framework using Selenium from scratch.

- Performed Regression testing, Bug fixing which were verified by Jira Tool.
- Performed System Integration Testing (SIT), and User Acceptance Testing (UAT) in staging environments of new/revised applications
- Developed **automation scripts** for automating Functional and Regression testing using Selenium Web Driver, Eclipse, TestNG, Java, Maven, Log4j and JDBC.
- Developed mockups and prototypes using HTML and CSS3 and bootstrap.
- Experience in cross browser compatibility check and thoroughly performed unit testing and integration testing.
- Used jQuery core library functions for the logical implementation part at client side for all the application.
- Debug the application using Firebug to traverse the documents and manipulated the Nodes using DOM and DOM Functions using Firefox and IE Developer Tool bar for IE.
- Involved in developing HTML and JavaScript for client side presentation and, data validation on the client side with in the forms.
- Developed CSS styles to maintain the uniformity of all the screens throughout the application and positioning of screen objects. Applied industry best practices and standards when project requirements are lagging.
- Did extensive JavaScript and JQuery programming to give AJAX functionality for the website.

Environment: HTML/HTML5, CSS/CSS3, JavaScript (Libraries: JQuery), AngularJS, Ajax, JSON, Java, Spring, cucumber selenium java, mocha, chai

REPUBLIC SERVICES
sr UI/UX Developer, Phoenix, AZ

Jan '15-Aug'16

Description: Republic services is a second largest waste management company in U.S. The company provides their services to residential and businesses and communities by booking the online we worked for the **main site** as well for the **admin portal** and also for **E-commerce**.

Responsibilities:

- Application Architected and developed using **AngularJS**, Created components, templates and modules using **RedUX JavaScript**
- Used **RedUX** to redesign the app by using **Reactjs** such as **Angular js** (for data driven apps) DOM manipulation) and De-structured Assignment by using **ES6** (EcmaScript 6).
- Designed various routing mechanisms for **E-commarce** . Update product information and content on the website
- Created banners, images, promotions etc for display on the website (using products like Photoshop) Updated content managed areas (copy & artwork)

- Used **NodeJS packages (npm)** for sharing and reuse the code .with task runners like **gulp grunt** and also **yeoman bower** .
- Investigated and reported any operational/technical issues arising
- Increased new customer acquisition by 8% by successfully redesigning, coding and redeploying the current website using **Photoshop, XHTML ,CSS and JavaScript and AngularJS.**
- Liaise with e-commerce agency regarding the day to day management of the website and Liaise with internal resources regarding the day to day management of the website
- Developed tabbed pages by using **AngularJS directives.**
- Developed custom **directives, factories and services in AngularJS.**
- Implemented various \$scope methods \$watch (), \$digest () and \$apply () in order to implement two way data-binding by using **AngularJS.**
- Developed high-impact, user-centered pages that conveyed with company's brand, value proposition and industry-leading functionality.
- Developed navigation, user flows, screens and controls. Created interactive prototypes and conducted usability testing to identify design patterns and produce style guide
- Responsible for creating the look and feel of the public website.
- Worked with designer who designed user interfaces and prototypes for a web-based internal system.
- Delivered user-centered design solutions in fast paced environment, with quick iterative cycles.
- Conducted usability tests, created user flows and wireframes, researched and documented usability standards.
- Innovated personalized view of content, resources, and support by role and activity.
- Creating cross-browser compatible and standards-compliant CSS-based page layouts.
- Involved in fixing Front-End issues with the layouts.
- Actively used **XML** (documents and transformations) for creating templates with dynamic data from **XML** file.
- Extensively used/modified **JQUERY** to perform **AJAX** calls for creating interactive web pages on **JSON** response.
- Worked with backend developers to convert **HTML/CSS non-functional pages** into dynamic JSP pages.
- Developed cross-browser pages using **CSS, HTML, DHTML, and JavaScript**
- Coded pages with best Search Engine Optimization (SEO) techniques.
- Designed applications that execute on various browsers such as Internet Explorer, Mozilla Firefox, Google Chrome, and Opera using various debugging tools like Firebugs/IE Developer Tools.

Environment: **HTML 4/5, CSS/3, Sass JavaScript, AngularJS, NodeJs JQUERY, AJAX, ReactJS, JSON, Photoshop cs6 (topaz, nik), Dreamweave, adobe Illustrator, XML, JSP, WebStrom, Rally, and git, slack.**

GE, San Ramon
Sr. User Interface Developer

Apr'14 – Jan '15

The VK project team has been tasked with rebuilding the user interface (UI), content and architecture, design and data model of the existing **ValvKeep (VK)** software application and its **VK Viewer** companion.

ValvKeep provides a "cradle-to-grave" lifecycle management platform for tracking valve maintenance, repair, testing, and certification at GE and channel partner facilities. VK Viewer enables customers to monitor valve maintenance and service timelines/milestones.

The VK team will provide a rebuilt user interface and enhanced functionality, allowing ease of navigation and consolidation of VK and VK Viewer into a unified platform. To be deployed as a hosted solution via GE's network, the application's service-oriented architecture and web-based framework will enable scalability, multi-user capability, and mobile accessibility.

Responsibilities:

- Involved in developing the UI pages using **HTML/HTML5, CSS/CSS3, JavaScript, JSON, jQuery, Ajax, AngularJS.**
- Developed the grids for valves, repairs, users using **Angular UI ng-grid, ng-table**
- Used Angular **\$resource** for API calls to Backend.
- Involved in Sprint Planning meetings as part of the VK Agile team.
- Integrated the UI code with Backend, Used **JSON** for data exchange between the client and server.
- Involved in making use of the **RESTful Services** built using **Java Springs framework.**
- Used **GRUNT** for task runner.
- Used **ADO.net** to connect to the database using the SQL Server .NET data provider.
- Used **Asp.net** validation controls for side validation.

Environment: HTML/HTML5, CSS/CSS3, JavaScript, JSON, jQuery, Ajax, Eclipse, Svm, Jira

SOA Software
Sr. Web/UI Developer

Sep'12 – Dec'13

SOA Software Open™ is an API Developer Platform that brings API providers and App developers together. Open provides easy access to powerful API Management capabilities combined with a social community allowing developers to collaborate to build innovative Apps with scalable APIs.

Responsibilities:

- Involved in development, design and implementation front end part of the **widget** based application.
- Used **jQuery template** for markup.
- Used **jQuery** plugins **autocomplete, validation, drag and drop** and more exceptionally.

- Used **HTML5** for audio and video playback.
- Used **backbone.js** as **Model**, **Widgets** as Controller and jQuery templates as View.
- Used **Ajax, JSON** with **jQuery** for request data and response processing.
- Used **JIRA** for bug tracking.
- Involved in **daily scrum** to discuss the design and work progress.

Environment: HTML/HTML5, CSS/CSS3, JavaScript (Libraries: JQuery), AngularJS, Ajax, JSON, Java, Spring MVC

ABN AMRO Bank, Amsterdam

March'10– Aug'12

Employer: Pramathi Technologies.

Web Developer

The project deals with online payments, user management, balance & transaction reporting. This project is on Wholesale Banking and Payment Solutions.

Application consists of 3 modules:

User Administration – This module deals with user rights, data access profiles and roles.

- Online Payment Processing – This module deals with the online payments such as corporate payments, FI transfers
- Portal Balance & Transaction Reporting – This module is used for balance & transactions reporting.

Responsibilities:

- Involved in using **XML** for developing tool for user interface customization
- Developed web **GUI** involving **HTML, XHTML, JavaScript, CSS, JSP**, Servlet and beans under MVC architecture
- Responsible for source code and version control (VSS), Involved in integration and deployment.
- Involved in coding reviews and enhancement of application.
- Developing the application as per the requirements.
- Developed various components of the application and unit test them.
- Developed various modules using MVC Struts.
- Used struts tag libs for developing user interfaces.
- Extensively used Java Mailing Service API to create, send, receive, and read messages between application components
- Written SQL Queries to interact with Oracle database.
- Deployed Enterprise application using WebLogic Application Server
- Maintained multiple Enterprise applications in Production Environment of WebLogic 8.1
- Successfully executed all the test cases and fixed any bugs/issues identified during the test cycles.

Education:

Master's in computer science from **Silicon Valley University** San Jose, Ca in 2014 with 3.6gpa.
Bachelor's degree from **university of Osmania** Hyderabad, India in 2010 with 85%.
